After attending Marquette University on a full scholarship, Dr. Ron Ziemann began a military career that culminated in four years in Europe, where he trained in advanced dental studies while climbing the ranks. Twenty-five years later, Dr. Ziemann resides in Albuquerque, and practices as a Las Vegas Institute of Advanced Dental Studies trained cosmetic specialist, as well as a family practice dentist.

Originally from the Minneapolis/St. Paul area, Dr. Ziemann spent most of his childhood in Wisconsin. It was during dental school that he and a classmate explored the southwest together. "During dental school, a classmate and I loved to ski and sail," he recalls. We entered the Queens Cup for sailing and toured the Southwest during ski season. On our ski trip, I fell in love with Albuquerque because of the climate and many sports available." He has been practicing here since 1979, and has been his current location since 1987.

"I am a perfectionist," declares Dr. Ziemann. "Attention to detail is extremely valuable in my field, and I take that very seriously. It's a privilege to be in the position to help patients be relieved from pain or give them the smile that they deserve. And when I can do that, it is only because God's talent and wisdom is used through me for the successful treatment of my patients."

In support of his adopted community, Dr. Ziemann has donated dental services through the Albuquerque District Dental Society. He also works closely with Soul Provisions, an inner city homeless ministry providing dental care to those in need at no charge or discounted costs.

Dr. Ziemann draws his inspiration from his family, which includes his wife and two sons, as well as his staff and long-time patients. He was voted one of Albuquerque's Top Dentists by his peers and colleagues in Albuquerque The Magazine's Top Dentists Issue.
